SHYAM SUNDAR

Director – IT & Program Delivery | Project & Delivery Management | Digital & Technology Transformation

Dwarka, Delhi, India | Phone: +91-817-826-7420 | Email: mac.src@gmail.com

---

PROFESSIONAL SUMMARY

Technical Program Manager / Delivery Leader with 20+ years of IT experience spanning enterprise application development, technology delivery, digital transformation, cloud, data, analytics, and AI/ML initiatives across Healthcare, Finance, Retail, CRM/ERP, SaaS, and Government domains.

Experienced in **end-to-end program and project delivery, Agile/SAFe governance, PMO, roadmap and release planning, RAID management, budgeting, vendor management, resource planning, stakeholder management, and cross-functional engineering leadership** across globally distributed teams.

Combines strong technical understanding with business and delivery leadership, enabling effective translation of business objectives into executable technology roadmaps and predictable delivery outcomes.

CORE COMPETENCIES

Program & Project Delivery

- End-to-End Program & Project Management
- Technology / Digital Transformation
- Delivery Planning & Execution
- Roadmaps, Milestones & Release Management
- PMO Governance & Reporting
- RAID Management
- Budget, Resource & Capacity Planning
- Vendor & Partner Management

Leadership

- Executive & Business Stakeholder Management
- Cross-functional & Distributed Teams
- Engineering Leadership
- Customer Management
- Risk & Dependency Management
- Process Optimization
- Global Delivery

Agile & Engineering Delivery

- Agile / Scrum / SAFe / Hybrid Delivery
- SDLC & DevOps
- Backlog & Sprint Management
- CI/CD & Release Governance
- Quality & Delivery Metrics
- Production Support & Operational Excellence

Technology

- Cloud: **Azure, AWS**
- Data & Analytics: **Databricks, PySpark, SQL, Power BI**
- AI/ML & GenAI
- Enterprise Applications: Java/J2EE, .NET
- SaaS / CRM / ERP
- APIs & Integration

KEY ACHIEVEMENTS

- Led **enterprise technology and digital transformation programs** across application modernization, cloud, data, analytics, and AI/ML, improving operational efficiency by up to **26%**.

- Improved **delivery predictability by 35%** through Agile governance, backlog optimization, dependency management, and cross-functional execution.
- Delivered technology initiatives contributing to **$200M+ business value** and **$800K+ annual cost savings** through automation, analytics, platform modernization, and process optimization.
- Scaled global engineering and delivery teams from **9 to 40+ professionals**, establishing Agile, DevOps, and ITIL-oriented operating practices.
- Managed programs across **India, US, UK, and Middle East**, coordinating distributed engineering, business, customer, and vendor stakeholders.
- Delivered **SaaS, cloud, data, analytics, CRM/ERP, and AI/ML solutions** while managing scope, schedule, quality, risks, dependencies, and stakeholder expectations.

PROFESSIONAL EXPERIENCE

Director – IT & Program Delivery

AI Wizard Pvt. Ltd. | Jan 2025 – Present

- Led multiple technology initiatives spanning **digital transformation, cloud, data, application modernization, ML/AI, and GenAI**, coordinating cross-functional delivery from planning through execution.
- Established delivery governance covering **program planning, milestones, RAID management, resource planning, budgeting, reporting, and stakeholder communication**.
- Managed technology roadmaps and execution priorities across multiple concurrent initiatives, aligning technical delivery with business objectives.
- Led AI/ML and GenAI initiatives involving **predictive analytics, NLP, RAG, and intelligent automation** as part of broader technology transformation programs.
- Provided technical and delivery leadership across engineering, data, cloud, and AI workstreams.

Technologies: TDM, MPP, Agile, JIRA, SAFe, AI/ML, GenAI, RAG, Azure, Databricks, MLflow, Docker, Power BI.

Manager – Development & Support **Vertiv Energy Pvt. Ltd. | May 2024 – Jan 2025**

- Established and scaled an enterprise delivery organization, introducing **Agile/SAFe delivery practices, governance, planning, and execution controls**.
- Led application, data, cloud, and AI/ML initiatives involving globally distributed technology stakeholders.
- Managed delivery of AI-enabled forecasting solutions supporting **resource-demand prediction, allocation, and operational decision-making**.
- Coordinated engineering teams, business stakeholders, and technology partners across multiple workstreams.
- Improved delivery visibility through **portfolio dashboards, delivery metrics, executive reporting, and structured governance**.

Technologies: TDM, MPP, Agile, JIRA, SAFe, DevOps, RAID, Azure, Snowflake, Power BI, REST APIs, ML, Data.

Technical Delivery Manager **Sugansa Solutions | Feb 2023 – Aug 2023**

- Managed technology delivery for **ASDA / Walmart Group, UK**, across multiple Azure-based engineering teams.
- Led delivery planning, sprint execution, dependency management, risk tracking, stakeholder communication, and release coordination.
- Improved delivery predictability through structured Agile practices, backlog management, and cross-team coordination.
- Managed transport management, warehouse optimization, analytics, and AI/ML initiatives supporting operational improvements.

Technologies: Azure, Databricks, ADF, Python, SQL, AI/ML, TDM, MPP, Agile, JIRA, SAFe, DevOps.

Senior Manager – Engineering **OpenGov Inc. | Aug 2021 – Feb 2023**

- Led delivery of **Finance and ERP SaaS platforms** for US public-sector customers.
- Managed cross-functional engineering teams and coordinated product, engineering, QA, DevOps, and customer stakeholders.
- Implemented **SAFe practices, release trains, program increments, delivery KPIs, and governance mechanisms**.
- Improved release quality and delivery predictability through structured planning, CI/CD practices, and engineering governance.

Technologies: JavaScript, PHP, Laravel, Oracle, PostgreSQL, AWS, REST APIs, CI/CD, Ansible, SaaS, Agile/SAFe, TDM, MPP, Agile, JIRA, SAFe, RAID, DevOps.

Senior Project Manager **RxLogix | Jan 2019 – Aug 2021**

- Managed delivery of **pharmacovigilance SaaS, clinical analytics, and ML/AI initiatives**.
- Owned product roadmaps, project plans, budgets, schedules, risks, dependencies, SLAs, and release coordination.
- Coordinated engineering, QA, product, customer, and business stakeholders across multiple concurrent initiatives.
- Ensured delivery alignment with **FDA/GDPR-related regulatory and compliance requirements**.

Technologies: MPP, Agile, JIRA, SAFe, DevOps, Confluence, Clinical Analytics, SaaS, ML/AI, QA processes.

Senior Project Manager **ICREON Communications | Jan 2018 – Jan 2019**

- Led digital transformation programs across **US, UK, and Middle East** markets.
- Managed Agile delivery, release planning, stakeholder communication, and PMO reporting.
- Coordinated distributed technical teams across application development and integration workstreams.

Technologies: .NET, MS SQL, AngularJS, Node.js, REST APIs, Azure DevOps, Agile/Scrum, JIRA, MPP, Confluence.

Delivery Manager **Rohati Technologies | Oct 2015 – Mar 2017**

- Established and managed a delivery center executing **government and financial-market programs**.
- Led solution planning, technical roadmaps, proposals, resource planning, and delivery governance.
- Managed customer and engineering stakeholders through project execution and release delivery.

Technologies: MPP, Agile, JIRA, DevOps, Confluence, Java/J2EE, Spring, Spring Boot, Hibernate, Python, Machine Learning, MySQL, REST APIs.

Manager – IT **Encore Capital Group | Aug 2012 – Oct 2015**

- **Scaled** the global technology organization from **9 to 40+ resources**.
- Implemented Agile, DevOps, and ITIL-oriented practices to improve delivery and operational stability.
- Delivered global financial platforms supporting new business initiatives with projected **$200M revenue opportunity**.
- Managed distributed engineering teams, technology delivery, production support, and stakeholder engagement.

Technologies: MPP, Agile, JIRA, DevOps, SharePoint, ServiceNow, Java, Spring, Spring Boot, Hibernate, Oracle, DB2, ServiceNow, Agile, DevOps, BI.

Deputy Manager – IT **Hyundai AutoEver | Jul 2008 – Aug 2012**

- Delivered CRM and Dealer Management System initiatives.
- Implemented BI solutions contributing to **$800K cost savings** and automated warranty processes saving **5,400+ hours annually**.
- Coordinated application development, business requirements, delivery, and production support.

Technologies: Team management, Customer management, mentorship, Java/J2EE, JavaScript, jQuery, Struts, Spring, Oracle, SQL Server, BI, CRM, ERP.

EARLY CAREER

- **Project Leader** – Tanaashi Technologies — e-Governance Programs
- **Software Engineer** – EderSoft Technologies — Telecom VAS
- **Technical Supervisor & Trainer** – Rajendra Institute of ESW

EDUCATION

MBA (IT) – SVS University, Meerut
Bachelor of Engineering – National Institute of Technology (NIT), Patna

---

CERTIFICATIONS & TRAINING

- Certified ScrumMaster (CSM)
- PMP Training / 35 PDUs
- Machine Learning – Stanford University
- SAFe Certified
- AWS Fundamentals – Amazon Web Services
- Software Design & Architecture – University of Alberta
- DevOps Certification – Eduonix
- Manager's Development Program (MDP)
